Get started
In this section I will be answering key questions on how to become a Graphic Designer.

In this section I will be discussing Graphic Design and design theory. This is essential learning for anyone who wishes to know more about Graphic Design.

If you’re considering a career in Graphic Design and wonder if it’s right for you, I will be answering a bunch of key questions in this section.
Overview:

Hello and welcome to this beginners guide series to Graphic Design.

If you’re interested in Graphic Design and considering becoming a Graphic Designer then join me as I discuss a series of Graphic Design topics.

From what Graphic Design is, Skills to be a Graphic Designer, Design theory, Education you need, equipment you need, to the Graphic Design portfolio and interview advice, this series is for anyone at any level.

I have created this series to share my experience and give some advice to aspiring designers at any level, who wish to find out more about Graphic Design and the industry.

To make this series easy to watch and understand I have broke it down into four sections:

Section 1: Graphic Design theory
Section 2: Considering a career in Graphic Design
Section 3: Becoming a Graphic Designer
Section 4: Graphic Design and beyond

Over the 45 episodes I will be touching on some important topics and answering some basic questions.

By the end of this series I hope you will have a good understanding of Graphic Design and what it’s like to be a Graphic Designer.

Episode 1:
What is Graphic Design?

Overview
In this video I am going to attempt to answer this question and give you my take on it from my experience.
‘Line’ Visual element of Graphic Design

Overview

One of the most basic visual elements of design is the 'line', and it should not be underrated.

As simple as lines are they can be used as crucial elements of design.

Lines can be used to add structure to a composition, to frame information and to divide information. Lines can be used to add hierarchy and emphasis, to decorate and to draw the eye to a specific point.

They can also be used to build and represent information in info graphics.

Lines can be straight, curved, thick, thin, solid, and dashed.

Episode 3:
‘Colour’ Visual element of Graphic Design

Overview
In this video I am going to discuss the second key visual element, and discuss ‘Colour’ as a visual element in Graphic design.

For an amazing resource to explore and create colours schemes visit:

**Monochromatic colors**

Monochromatic colours are shades and tints of the same colour. The monochromatic colour scheme is typically balanced and easy on the eye.

**Analogous colors**

Analogous colours are balanced but are typically more interesting as the colours have more contrast.

**Complimentary colors**

Complimentary colours have high contrast, which produce vibrant exciting colour schemes.

**Tertiary colors**

Tertiary colours typically produce vibrant effects.

In design ‘Shapes’ have two dimensions and are measured by their height and width.

Shapes are defined by boundaries, such as a lines or colour and can also be created with negative space.

Episode 5:
‘Texture’ Visual element of Graphic Design

Overview
In this video I am going to discuss the fourth key visual element, and discuss ‘Texture’ as a visual element in Graphic Design.

In design there are 2 key types of texture:

- **Image textures**
- **Pattern Texture**

Shapes are defined by boundaries, such as a lines or colour and can also be created with negative space.

Episode 7: ‘Form’ Visual element of Graphic Design

Overview

In this video I am going to discuss the 6th key visual element, and discuss ‘Form’ as a visual element in Graphic Design.

Form is described as any three-dimensional object. ‘Forms’ are the 3D equivalents of ‘shapes’ and as such are measured by their height, width, and depth.

‘Form’ can be defined by the presence of shadows on surfaces or faces of an object and can be enhanced by tone, texture and color.

Episode 13:  
‘Proximity’ Design principle of Graphic Design

In this video I am going to discuss the 5th key design principle, and discuss ‘Proximity’ as a design principal in Graphic Design.

Principle

When we begin to place shapes together we create a particular relationship between them.

In this example we have three individual shapes.

If placed together in just the right proximity, negative space is made to suggest a new visual shape entirely. This gives new meaning to the individual shapes that make this composition.

If we move them apart ever so slightly, this visual, this message is lost.

Practice:
Practice your drawing
- Observation and still life drawing
- Copy what you see

Practicing your Graphic Design (Mini brief)
Practise your software skills (Imitation project)

Mini brief
Think of a local coffee shop you like, or make one up.

1 - Design or redesign a logo for that coffee shop.

2 - Define some colours, a choice of fonts, and create a theme, a brand to go with your logo.

3 - Take that brand and Design a poster to promote the coffee shop and include the logo.

4 - Take the poster design which should include your brand elements and design a menu for their coffee list.

Imitation project
Find a poster you really like or a magazine article, and attempt to copy it on the computer.

Study everything about it, and see the creative decisions the designer made. By trying to imitate the design on computer, you will not only be practising your software skills but learning about design principles.

Episode 32:
What programs do I need to be a Graphic Designer?

Overview

As a Graphic Designer depending on what job you’re doing, you will have to use particular design software.

In this video I am going to discuss the creative software tools you will need as a Graphic Designer, and which software you might use for which design scenario.
I often get asked question about the Graphic Design portfolio,

Questions like?

What makes, for a good portfolio?
Whats the best type of portfolio? Print or digital?
Do I need a website?
How many projects do I include?
What if i don’t have any projects to show?
What are employers looking for?
How much type do I include?
What’s the best program to use to build my portfolio?

So In this video I am going to discuss the Graphic Design portfolio and answer these questions. In this video I'll also be sharing my experience, and offer some tips to keep in mind.
2 questions I often get asked are,

*What portfolio should I use, print or digital?*

and

*Which one is best?*

Well the answers to these questions vary depending on what type of designer you consider yourself to be and the approach you take to look for jobs, apply for jobs and present at interviews.

So in this video I am going to discuss the print and digital Graphic Design portfolio and recommend which strategy is best for which type of Graphic Designer.
Episode 35:
The Graphic Design CV

Overview

I often get asked a lot of question about the Graphic Design CV.

Questions like:

What makes for a good CV?
What type of CV is best, Print or digital?
What should I include?
How many pages should it be?
How much type do I include?
What are employers looking for?
What is the best program to use to build the CV?

So in this video I am going to discuss the Graphic Design CV and answer these questions. In this video I’ll also be sharing my experience, and offer some tips for you to keep in mind.
Episode 36:
Career change to be a Graphic Designer?

Overview

If you're currently in a different creative career, or perhaps you have not gone through the traditional creative education process, you don't have any creative qualifications and you're wondering:

'Is it too late for me to be a Graphic Designer?'

'Where Do I begin?'

and

'Do I need to go back to school?'

In this video, I am going to discuss these questions and I'll be recommending some approaches and things you can keep in mind. In this video, I'll also be sharing my experience, and advice on your education options.
Episode 37:
‘Apply your skills’ How do I begin as a Graphic Designer

Overview

To get started I would suggest you undertake 6 key steps, and I would recommend you do them in the following order.

Step 1 Learn & Research, Step 2 Collect, Step 3 Be inspired, Step 4 Practice, Step 5 Seek Education & Step 6 Apply your skills

Now these steps can be taken at any stage in your life. If young, still in school, and looking to get into Graphic Design, you can follow these steps, if your older, perhaps you’re thinking about a career change, you can also follow these steps.

In this video I am going to talk about step 6 ‘Apply skills’.
Overview

Now I often get asked the question

“How do I find a Graphic Design job?”

In this video I am going to attempt to answer this question and talk from experience and give some tips and advice to keep in mind.
Episode 39:
Interview preparation to be a Graphic Designer

Overview

 Often get asked the question:

“What things can I do to best prepare for a design interview?”

In this video I am going to attempt to answer this question and share some of my experiences and offer some tips you can do to help prepare for a Graphic Design interview.

Prepare for your presentation:

- Practice your portfolio presentation
- Be prepared to only talk about 3 of your projects
- Tailor your portfolio
- Have the portfolio ready on device
- Have examples at the ready
- Have something to leave behind after the interview

Prepare for questions:

- Clue up on the company beforehand
- Have a few projects of theirs in mind to talk about
- Know what your ideal project would be
- Know what you want to achieve at the company
- Have at least 6 questions for them

Interview tips to be a Graphic Designer

Overview

In this video I am going share some of my experiences and offer some tips you can keep in mind to help you have a successful interview.

For this video I am going to separate my tips into four sections:

Character tips
Presentation tips
Essential do’s
Essential don’ts

Character tips:

Show up exactly on time
Memories the names of the people you will be meeting before you arrive
Give a good firm handshake
Eye contact, with everyone
Take your time answering questions
Where you lack experience make up for in eagerness to learn

Presentation tips:

Stand up and present
Start on a high
Talk in detail about your work:
• Say what you did, your involvement in the project.
• If you worked in a team talk about who was involved
• Talk about the challenges you faced
• Talk about your inspirations
• If you can, show your design process and talk about your research method
• Explain your design decisions

Essential do’s:

• Talk about how long it took to develop
• Explain how it satisfied the brief
• Did you exceed expectations?
• Finish with any success stories, how did the design benefit them, and how?

Talk calmly and anticipate questions.
Show print examples
End on a high

Essential don’ts:

Don’t moan or criticise your last job or people you worked with
Don’t talk about money
Don’t talk about holiday
Don’t appear desperate for the job
